Special to THE TIMES.

BELFAST, Sept. 10.—The Harbor Commissioners gave a banquet last night to Earl Carnarvon. The Earl made a speech in the course of which he said it was time to reject sentiment and institute an impartial searching inquiry into the relative measures of free trade and protection. He had been struck by the vast natural resources in West Ireland that remained undeveloped owing to the absence of railways and market. It was a delicate question whether the government should aid in the development of these resources, but the circumstances of Ireland were similar to those of colonies, where such aid had been given with advantage.

GENERAL DESPATCHES.

The Canned Salmon Market
Special to THE TIMES.

SAN FRANCISCO, Sept. 9.—Sydney, Australia, advices to August 13, report the condition of the canned salmon market as follows: Further shipment of the new season's catch, consisting of some seven thousand cases, arrived per the City Sidney on the 1st instant, to a dull market. Buyers of best brands to arrive at six shillings and upwards, have in in some instances, been reselling at five shillings and ninepence, the greater number, however, preferring to store. This, it must be admitted, is a very unsatisfactory state of things, nor can we hope for any improvement just at present, as telegraphic advices inform us that the next boat brings a further shipment of five hundred cases. With the return of summer, however, and consequent increasing demand, the market will doubtless revive, but till then we do not look for any marked advances in price. Stocks of low brands are at present tolerably light.

Fumigating the Mails.
Special to THE TIMES.

WASHINGTON, Sept. 9.—Acting on information furnished the U. S. Consul-General at Montreal, Acting Postmaster-General Stevenson to-day sent the following telegram to the Canadian Postmaster-General: "Washington, D. (Signed) A. E. STEVENSON,

Mail Subsidy Voted.

SAN FRANCISCO, Sept. 8.—Advices from New Zealand by steamer City of Sydney states that Sir Julius Vogel's motion relative to retention of the San Francisco mail service was carried in the House of Representatives by a large majority. He then announced that it was the intention of the government to call for tenders for an eighteen days' mail service between San Francisco and New Zealand, Auckland to be the terminal port of steamers.

Chinese Refugees.

SAN FRANCISCO, Sept. 8.—Many of the Chinese who were driven from their homes in Wyoming Territory last week, are en route for San Francisco. Two of the unfortunate Mongolians arrived in this city yesterday. They made their way on foot as far as possible from the scene of the outbreak, and then took the train. As they were unable to speak English, no relation of their experiences could be obtained. The fact was learned, however, that more than 500 Chinese refugees have congregated at Evanston, and are in great distress, as they have neither food nor clothing.

The Question of Coercion—Settlement of the Afghan Trouble.

Lord Churchill delivered an address at Sheffield on the evening of the 3rd inst., in the course of which he said there was no reason as yet to regret the absence of coercion in Ireland. He also said he was glad to announce that the Afghan frontier question had been settled, Russia having largely modified her claims. Lord Dufferin and Colonel Ridgeway, he said had agreed to a new frontier line which gave the Ameer full command over the Zulfikar. The government was hopeful that an arrangement would be made with Russia, to give the present state of affairs permanent security. Lord Randolph testified to the Ameer's fidelity and loyalty throughout the negotiations.

Many members of Parliament, the Lord Mayor of London, Mayor of York and Mayors of several other cities listened to Lord Randolph's address.

Lord Coleridge to Resign.

LONDON, Sept. 8.—It is reported on good authority that Lord Coleridge is about to resign the Lord Chief Justiceship of England. The manner of his recent marriage, followed so soon on the scandal occasioned by the treatment of his daughter and her husband, has made his position in London society painfully awkward. It may be that this fact will compel him to hide his head, though, as he did not marry an heiress, it is to be presumed he will be exceedingly loth to exchange his handsome salary as Lord Chief Justice for a small pension. He is still honeymooning in Peterborough with his bride and his new mother-in-law.

A Mystery Cleared up.

St. Catherines, Ont., has its sensation. Alexander Esterly and wife disappeared mysteriously from Effingham last fall. The matter had been forgotten until a day or two since when Esterly's brother revealed that the missing man had killed his wife and buried the body in a lot adjoining their residence. Esterly's brother, John, assisted in the murder and is now in jail. The brother who makes the confession was assisting John in burying the body when they had a quarrel and the former was seriously beaten. Alexander shot himself after killing his wife, and according to an understanding John cut the suicide's throat, thus finishing the job, and the body was buried in Miller's wood. The body of the woman has been found, but no trace of her husband's remains have been discovered, and it is thought that his alleged killing is false.

Martin Archibeld, victim of the fray in Huntingdon, near Belleville, Ont., is reported to be in a dying condition. An effort was made to take his deposition, but it was found impossible.

THE DEATH SENTENCE

Pronounced on Louis Riel Confirmed by a Full Court of Judges

In the Manitoba Court at Winnipeg Yesterday—Its Probable Effect.

Special to THE TIMES.

WINNIPEG, Sept. 9.—A full sitting of the Manitoba Court was held to-day to consider the hearing in the Louis Riel appeal case. After counsels for prisoner and crown had addressed the court that body unanimously confirmed the death sentence of Louis Riel. Chief Justice Wallbridge in his address to the counsel said he believed Riel to be a schemer, working for his own personal selfish interests only and not actuated by any desire to promote the amelioration of his fellow countrymen.

The general opinion now is that the sentence will be carried into effect on Friday of next week.

FURTHER PARTICULARS.

CHICAGO, Sept. 9.—The Daily News' Winnipeg special says the full court of Manitoba, composed of Chief Justice Wallbridge and Justices Taylor and Killman, to-day gave judgment on Riel's case, disallowing the appeal and confirming the death sentence passed by North-west territories court. All held that according to the evidence the jury could not come to any other decision than they did, and by Dominion statute, confirmed by the Imperial Parliament, the North-west territory court clearly had jurisdiction, and that while the prisoner acted strangely at times, he was a clever, designing man, who sought to advance his own interests by using the half-breeds as tools. There is a growing conviction in Winnipeg that Riel will be hanged on the 18th.

ANOTHER IRON BRIDGE

To Span the St. Lawrence, to be Constructed by the C. P. R. Co.

For some little time back the C. P. R. engineers have been going over the measurements and soundings formerly made between Lachine and Caughnawaga near Montreal, on the site of the proposed bridge. Work is shortly to be commenced on this structure and the soundings are being made over again to prevent the possibility of any mistake necessitating a change of plan after the contract has been given. The line by which the C. P. R. will reach this bridge has been already built as far as Cote St. Luke. From there to the St. Lawrence the road will cross on a thirty feet embankment crossing the G. T. R. main line, Lachine branch, and Lachine road by bridges. The line will be carried over the canal by a swing bridge 40 feet above the summer level of the canal. Being so high this bridge will have to be opened very seldom. The St. Lawrence bridge site is about two miles above the rapids and about a hundred yards from the monastery of the Oblat Fathers. The bridge proper will be of iron and about 3300 feet long, crossing the river by twelve spans. Eight of these will be 208 feet, two of 260 feet, and two with a headway of 60 feet over the summer level, will have a clear span of 408 feet. The river bed is most favorable for bridge building at this point, only one pier having a depth of 29 feet, and the other eleven not averaging more than 12 feet. It is estimated that the whole cost of the bridge and approaches will be in the neighborhood of two and a half million dollars. From the Caughnawaga side of the bridge a line will have to be built to Chambly or St. Johns.

THE PISTOL AGAIN.

Unsuccessful Attempt of an Ohio Man to Kill Two Women—Suicide of the Would-be Assassin.

In Texas Hollow, thirteen miles from Thornton, W. E. Booth made an ineffectual attempt to kill two women and then killed himself. He was married a year ago to Alice Montgomery, against the wishes of her parents. He took her to his father's house, where disaffection sprang up between his mother and his wife. After a while he joined his mother in mistreating his wife, and the girl's father took her home. Since then he has made threats against her, and has begged her to live with him, but she refused. Saturday night, being intoxicated, Booth went to the house of Morrit Willis, who married his wife's half sister, and found his wife's mother, Mrs. Montgomery, and Mrs. Willis eating a midnight lunch. He immediately fired two shots at Mrs. Montgomery and one at Mrs. Willis. Both screamed and fell, and Booth, thinking he had killed both, ran nearly to his father's house and there shot himself through the head. He was an only son of a respected farmer, and had been well educated. A paper in his pocket outlines his purpose of murder and suicide. Mrs. Montgomery was not hit. Mrs. Willis received a glancing wound in the side.

The traffic returns of the Canadian Pacific railway for the week ending Aug. 21, show an increase of $42,000 over the same period last year.

Certificates for scrip to be given the rebellion volunteers are being signed in the Militia Department, and will be issued from the Interior Department about six weeks hence.

Gordon, government land agent at Calgary, has been appointed inspector of agencies and member of the Land Board, positions which have been vacant ever since the appointment of Mr. H. H. Smith to the office of Dominion Lands Commissioner. Mr. Amos Rowe late of the Winnipeg Times, has been appointed land agent at Calgary in the place of Mr. Gordon.

An exhibition of Gatling gun shooting was given at the Rideau range at Ottawa last week, in the presence of a large number of spectators, among whom were the Governor-General, the Minister of Militia and General Middleton. The range was 500 yards, and the target was 30 feet wide and 6 feet in height. Three hundred shots were fired, one-third of which number penetrated the target.

At last the people whose feelings were hurt by the exposures in the Pall Mall Gazette are beginning to show their teeth. They had not the courage to proceed against the editor of the paper during the excitement immediately following the disclosures, but now that the sensation has in a measure subsided they can afford to begin the work of punishment. The editor of the Gazette will be a lucky man if he escapes the vengeance of the men now after him, but his persecutors will be infinitely more lucky if they avoid raising a storm which may end disastrously for them and all their class. The English are a patient people, but there must be a limit even to their endurance.

NOTES AND COMMENTS.

THE members of the Dominion Rifle Association have joined in the protest against being made to shoot with inferior ammunition manufactured at Quebec under instructions from the Dominion government.

A TEN million dollar deficit in the U. S. Postoffice Bureau is one of the cheerful consequences of the reduction in the price of mail facilities, which began with the adoption of the two-cent letter rate. But, in this case, what is everybody's loss has been everybody's gain.

THE many friends of HON. C. F. FRASER, Commissioner of Public Works for Ontario, will regret to learn that he is very ill at his residence in Brockville. MR. FRASER has been a hard worker, and it is feared that his health has been permanently impaired.

THOSE who have been led to believe that the Scotch are par excellence the Sabbatarians of Christendom should make a note of the fact that in Glasgow, Scotland, and Hamilton, Canada, the most Scottish city in the Dominion, the Sunday car question has been practically settled in favor of the cars.

MAJOR WALSH of the Northwest mounted police has returned to Ontario. He states that notwithstanding the recent frosts, the crops in the Northwest have been garnered in excellent condition, and that they are the finest, both in quality and yield, ever raised there.

THE peaceful attitude of the Irish people of all classes towards LORD CARNARVON has led to a great rush of tourists into Ireland from the sister isle. The rush will contribute to the prosperity of Ireland, and, it has been said, will increase the popularity of the new Viceroy. It was not, however, fear of Earl Spencer, which kept tourists out of Ireland.

THE smallpox epidemic in Montreal still shows no sign of abatement. The local Boards of Health have at last been aroused to the necessity of vigorous action, and have requested the Lieut.-Governor to enforce the law requiring the appointment of a Provincial Board of Health, similar to the system in force in Ontario.

As the time approaches for the annual elections of the officers of the Northern Pacific Railroad Company, the interest in the result seems to become more intense. PRESIDENT HARRIS will not be removed, it is thought, but a very decided opposition will be developed against the proposed lease of the O. R. & N. Company's lines on the one hand, and the completion of the Cascade division, on the other. PRESIDENT SMITH, of the O. R. & N. Company thinks the Cascade division will be a useless and expensive branch of the road which already has a better line to its western terminus at Tacoma.

NOTWITHSTANDING the efforts of mutual friends to prevent the recent Dublin horsewhipping scandal coming before the law courts, it is feared both an action for assault and an application for divorce will result. CAPTAIN BARRY, who was assailed by MR. JOHN POLLOK, in front of the Kildare street Club, says he has placed the matter in the hands of his Colonel, and that legal steps will follow. CAPTAIN BARRY was an *aide* to EARL SPENCER, the recent Lord Lieutenant. MR. POLLOK has instructed his solicitors to commence proceedings for divorce. MRS. POLLOK was the HON. FLORENCE MADELINE BINGHAM, daughter of the late and sister of the present LORD CLANMORRIS. She is twenty-nine years of age and was married in 1873.

PRINCESS LOUISE OF WALES is eighteen years of age, and gossip has been very busy for some time back in finding her a suitable *parti*. No sooner was the rumor contradicted of her Royal Highness' betrothal to GRAND DUKE PAUL, the DUCHESS OF CONNAUGHT's brother, than the report was spread that PRINCE OSCAR, of Sweden, whom the PRINCE OF WALES has invited to return with him for the English hunting season, is to come a-wooing the royal maid. This story has in its turn been denied, and the latest report has it that the PRINCESS OF WALES and her sister the Empress of Russia are desirous of uniting the Princess and the CZAREWITCH NICHOLAS, who, however, is a year younger than his royal cousin. It is said that no one thinks less of love, courtship, or marriage than the Princess, who has been kept all her years in the strict bondage of sedate governesses and tutors.

RAILWAY EXTRAS.

An Ottawa dispatch of the 1st says:

"Mr. Onderdonk, the government contractor for the construction of the Canadian Pacific Railway in British Columbia, will arrive here to-morrow to press his claims for extras on his contract."

It is understood that the visit of the government Engineer-in-Chief and Superintendent of Dominion railways, MR. COLLINGWOOD SCHREIBER, accompanied by the HON. JOHN HENRY POPE Minister of Railways, and SIR CHARLES TUPPER, ex-Minister of Railways, is in connection with the above item and the acceptance by the government of the contract from MR. ONDERDONK. The contractor has succeeded in getting his final estimates passed by the Dominion officials, but the line has not yet been taken over by them. As might be expected in so gigantic a contract, claims for extras, to a considerable amount, have been made by MR. ONDERDONK. It is stated that the road bed has been completed in strict accordance with the plans and specifications and that none but a practical railroad construction engineer could detect the serious defects that exist in the slopes and embankments as well as the curvatures, which if allowed to pass in their present condition, the road could not be claimed as a first class one, nay, its rating would be that of a very inferior fourth grade. A conflict of opinion is known to exist between the government engineers, those acting for the Canadian Pacific Company, and MR. ONDERDONK's staff. It will be quite in order for the C. P. R. engineers to condemn much of the work; a similar line of action was adopted on the road between Rat Portage and Fort William, and the government compelled to allow the company something like $900,000 in order to render the road safe for rapid transit. If the plans and specifications prepared by the government for the Pacific Coast division have been carried out by MR. ONDERDONK, he cannot be held responsible for the shortcomings that are said to exist. If the government engineers allowed him to depart from these, and instead of receiving from his hands a first-class road, for the many millions paid him therefor, the country is to be put off with a mere make shift of a line on the government's shoulders must rest the responsibility for their dereliction of duty. It need not be a surprise to any one, therefore, if the Canadian Pacific Railway company should insist on receiving a considerable bonus from the Dominion for accepting the line in its present condition, on their agreeing to rectify the shortcomings of the government officials. Such a bonus will be applied in reduction of the company's indebtedness to the government. Let the cost be what it may threatened dangerous obstacles must be removed, for should an accident occur in the canyons of the Fraser or the Thompson it is fearful to contemplate the result of trains being plunged into the boiling seething waters of these streams.

BRITAIN'S "GRAND OLD MAN."

In alluding to MR. GLADSTONE's recent tour the Toronto *Globe* says: It would seem as if it had come to be taken as a matter of course that wherever MR. GLADSTONE goes he should be received with an enthusiasm and affection which throw the ordinary progresses even of royalty into the shade. People seem never to get tired of crowding to see the Graud Old Man and of bidding him God speed. In Norway as in Scotland, in Shetland as in Wales, it is the same thing. Whether he is in power or out of it does not seem to matter. He may be hated by aristocrats, and sneered at by literary pedants, who even in their own chosen walk are not worthy to loose his shoe ties or brush his boots, but the great mass of the people wherever he goes cheer him as a great man and honor him as a good. He has borne the burden and heat of more than fifty years of public life, and he never was more popular or more honored than he is to-day. His record during those fifty years is before the public. The jury of the world has sat upon it—nay, is sitting upon it still. Again and again the verdict of that jury has been given, and has always been such as might well make the humblest man proud, and put the most modest in danger of becoming arrogant. Were he to come to America, beyond all reasonable doubt he would receive, both in Canada and in the States, such a welcome as was never accorded to any man or to any woman that ever crossed the Atlantic. And what is the great secret of his continued popularity? He has sought to gain it by no unworthy means. And as little does he retain it by flattery or baseness. In fact few public men in either hemisphere have been less of popularity-hunters than has MR. GLADSTONE. His abilities are, no doubt, very great, and his eloquence something that may be called unique. But his abilities and eloquence would have failed to make the reputation he has so long enjoyed, or to secure the affection in which he has so long been enshrined, had his honesty of purpose and effort not been made so clearly evident, and had his sensitive conscientiousness and unaffected goodness not been felt to be in accord with his other excellences, and thus to give force and unity to his whole career. In short, it is the moral qualities of WILLIAM GLADSTONE much more than those of his intellect that have made him so long the trusted leader, and at the same time to such an extent the object of the honest admiration and unfeigned affection of the great masses of the British people.

medicine is the first necessity for cure. Then the cathartic effect must be maintained, in a mild degree, just sufficient to prevent a recurrence of costiveness, and at the same time the liver, kidneys and stomach must be stimulated and strengthened.

Ayer's Pills

Accomplish this restorative work better than any other medicine. They are searching and thorough, yet mild, in their purgative action. The prompt use of AYER'S PILLS to correct the first indications of costiveness, averts the serious illnesses which neglect of that condition would inevitably induce. All irregularities in the action of the bowels — laxatives as well as constipation — are beneficially controlled by AYER'S PILLS, and for the stimulation of digestive organs weakened by long-continued dyspepsia, one or two of AYER'S PILLS daily, after dinner, will do more good than anything else.

WOMAN AND HOME.

VARIOUS MATTERS OF INTEREST TO MATRONS AND MAIDENS.

Mission and Influence of Dress—Women of Chili—Sleeping Rooms—The Baby—Making Tea—Useful Hints for Washing Day.

[Nelly Browne in The Household.]

In cases where it is feared that soap may change the color of an article, as, for instance, scarlet hosiery or lilac print, if the garment be not badly soiled, it may be cleansed by washing, without soap, in water in which pared potatoes have been boiled. This method will also prevent colors from "running" in washing prints.

To prevent blue from running into a white ground, dissolve a teaspoonful of copperas in a pailful of soft water, and a piece of lime the size of an acorn, and soak the garments in this water two hours before washing.

To keep colors from running in washing black prints, put a teaspoonful of black pepper in the first water.

To make linen beautifully white, prepare the water for washing by putting into every ten gallons of water a large handful of powdered borax. Or, boil with the clothes one teaspoonful of spirits of turpentine.

To remove tea stains from a white cloth, soak it in javelle water, which is made as follows: Put a pound of sal soda and 5 cents worth of chloride of lime into an earthen vessel, pour over it two quarts of soft water, stir well until the sal soda is dissolved, and use the bath warm. This is also effectual in case of grass, tannin or fruit stains.

A simpler way to remove grass stains is to spread butter on them, and lay the article in hot sunshine.

Fruit stains upon cloth or upon the hands may be removed by rubbing with the juice of ripe tomatoes. If applied immediately, powdered starch will also take fruit stains out of table linen. Left on the spot for a few hours, it absorbs every trace of the stain.

For mildew stains, mix together soft soap, laundry starch and half as much salt, and the juice of a lemon. Apply to the mildewed spots, and spread the garment on the grass. Or, wet the linen, rub into it white soap, then finely-powdered chalk; lay upon the grass and keep damp. Mildew stains that have been long in linen may be removed by rubbing yellow soap on both sides, afterward laying on very thick, starch wetted with cold water. Rub in well and expose to light and air.

There are several effectual methods of removing grease from cloth. First, wet with a linen cloth dipped in chloroform. Second, mix four tablespoonfuls of alcohol with one tablespoonful of salt; shake together until the salt is dissolved, then apply with a sponge. Third, wet with weak ammonia water; then lay thin white blotting or tissue paper over it, and iron lightly with an iron not too hot. Fourth, apply a mixture of equal parts of alcohol, gin and aqua ammonia.

To make very stiff starch, add to each cupful and a half of cold, soapy water two heaped teaspoonfuls of starch and one even teaspoonful of powdered borax. Dissolve, and wring through it collars, cuffs, etc., having previously dried them. They will be as stiff as pasteboard. Another way to make starch very stiff is to use equal quantities of starch and epsom salts, using only half the usual quantity of the former.

For everything but lace starch may be used cold; but cold starch will not stiffen lace. Laces should be cleansed by winding them round and round a long bottle between two thicknesses of flannel and boiling in water to which a trifle of borax has been added. Then remove the outside flannel, rinse the lace in two or three waters, then dip in a weak starch or gum-arabic water; all without removing the lace from the bottle. Dried in this way it is kept smooth, and it is not easily injured, needing no ironing.

Mission and Influence of Dress.

[Ellen Bliss Hooker in "Good Housekeeping."]

So long as the world stands there will be envious women, women who will make their own lives a failure, wreck domestic happiness, cause financial embarrassment, etc., etc., by their inordinate love of display in dress. This touches pretty nearly the social evil problem, and also suggests one reason why so many young men choose to remain unmarried.

It therefore devolves upon all true and sensible women to do what they can to check these tendencies of our time. We can not make one rule of dress for all classes of women, and no woman should be judged, or misjudged, by her style in dress. Conscience should have somewhat to do in this matter, and therefore we lay down this principle, viz: No woman has a right to adorn herself in a manner which shall cause unpleasant criticism, either as to herself, personally, or those upon whom she is dependent for her raiment.

Many women have independent incomes; others have relatives who make gifts of a pretty costume to a less-favored friend, and we do well to be careful of one another's feelings in this matter. There is so much that is beautiful in dress, and fashion allows us to secure such delightful harmony of color and design, with so much of liberty as well, that there would seem to be no reason why every sensible woman should not be neatly and suitably dressed, according to her station in life.

When mothers talk less of dress before their little children, when school girls have less time to gossip over the cost and variety of clothes, when young ladies are cordially welcomed in social circles for what they are in, and of, themselves, and not for what they wear, when wives cease to annoy their husbands because they can not dress as well, or better, than some other men's wives; in short, when conscience and common sense control this whole matter, the ideal dress will be in vogue, and, probably, that "when" will usher in "the millennium."

The Women of Chili.

[Santiago Cor. New York Sun.]

The women of Chili are not so pretty as their sisters in Peru. They are generally larger in feature and figure, have not the dainty feet and supple grace of the Lima belles, and lack the voluptuousness which is given to all tropical flowers. In Valparaiso, which is practically an English colony, half the ladies are of the Saxon type, and blonde hair looks very graceful when one has seen nothing but midnight tresses for months. Here, too, modern costumes are worn more generally than in other South American countries, and the shops are full of Paris bonnets. But the black manta, with its fringe of lace, is still common enough to be considered the costume of the country, and is always worn to mass in the morning by every one. The manta is becoming to almost everybody. It hides the defects of homely forms and figures and heightens the grace and beauty of those that are otherwise. It makes an old woman look young, a stout woman look more slender under its graceful folds, and even a skeleton would look coquettish wrapped in the rich embroidery which some bear.

The Chili mantas and skirts of white flannel are worn by penitentes, or women who

BOYS AND GIRLS

A Honey-Stealing Bear.

In California a large farm is called a ranch. Many people there give up their whole grounds to bees, and raise honey for sale, as a regular business. They call the place where they raise the honey a bee ranch. There are often hundreds of hives together. Much of our best honey comes from California.

But the bee keepers have an enemy there that eastern boys and girls dream about sometimes, but never see outside of a show. That is—bears. These clumsy and fierce creatures are as fond of honey as people are. They are still found in the mountains of California. When a bee ranch is near the mountains, these unwelcome visitors sometimes come and rob the hives at night. The bee-stings cannot get through their great shaggy coats.

One bee keeper had been troubled in that way a good while. Hive after hive of his best honey was ruined. He would retire to bed at night all serene, and in the morning go out among his bees to find the hives overturned, the bees buzzing crazily about, and the sweet, white honey lying scattered all over the ground. Then he said: "We'll watch for Mr. Bear, and catch him at this business. Then we'll stop him with a bullet." So he and his men watched. They climbed into trees above the hives, for it wouldn't be any fun to have a bear hug them, even once. They were armed with guns, ready to shoot the four-legged thief.

GRIZZLY AMONG THE BEE HIVES.

They thought Bruin would be there about 11 o'clock. They did not wait long. Pretty soon along came Mr. Bear. He knocked a hive over, stuck his great paw into the midst of the sweets and then sucked it with the gusto of a baby sucking its thumb. He was a real specimen of the grizzly bear of the Rocky mountains, the largest and most dangerous of his kind. He was of enormous size, and could not have weighed less than 1,000 pounds. Three persons, the owner of the ranch and his two hired men, fired into the huge animal at once. He dropped to the ground. There were three bullets in him as they supposed. They thought they had him. But no! They were mistaken. After a moment he jumped up and lumbered off towards his woods and mountains. A thicket was near by. The creature crashed into that. The bee-keeper's dog ran after him, barking like mad. But there the grizzly disappeared. A trail of blood marked his track a little way. But presently that stopped. The dog lost him. The men lost him, and that big grizzly has not been seen from that day to this.

[St. Nicholas.]

"It may seem very foolish,
But this I do declare:
If, as folks say, the moon's green cheese,
I wish that I was there."

Little Foxes.

Among my tender vines I spy
A little fox named—By-and-by.

Then set upon him quick, I say,
The swift young hunter—Right away.

Around each tender vine I plant
I find the little fox—I can't.

Then, fast as ever hunter ran,
Chase him with bold and brave—I can.

No use in trying—lags and whines
This fox among my tender vines.

Then drive him low and drive him high
With this good hunter, named—I'll try.

Among the vines in my small lot
Creeps in the young fox—I forgot.

Then hunt him out and to his den
With—I will not forget again.

A little fox is hidden there
Among my vines named—I don't care.

Then let "I'm sorry"—hunter true—
Chase him afar from vines and you.

Didn't Take.

A Sunday school teacher asked a little girl if her sister had been baptized.

"Yes," said the little girl, "two times."

"Two times! Why, how could that be?" exclaimed the teacher.

"It didn't take the first time," said the little girl.

Succotash was a new dish at Charlie's house, but one that pleased him immensely. He passed his plate to his mamma, earnestly asking for a "little more of the sacred hash."

Stones for the Monument.

[Washington Letter.]

Fifty-three presented stones have been selected from those collected on the monument grounds to be placed on the interior walls of the Washington monument. The selected stones were presented by foreign countries, states and territories, and Masonic and temperance societies. They are to be placed on the walls between the heights of 100 and 240 feet, and are to be cut down to a thickness varying from four to eight inches, and corresponding cuts are to be made in the walls, so that the stones will not project when inserted.

TO CORRESPONDENTS.

While the TIMES is always prepared to give publicity to the views of correspondents on any question of interest to the public, provided facts are given, couched in unobjectionable language, we wish it to be understood that we do not hold ourselves responsible for the views expressed by the writers thereof.

Nor can we give room to duplicates of letters that have appeared in our contemporaries either in this city or elsewhere in the province. Correspondents, therefore, will save time and trouble in preparing such for THE TIMES, as they will be rejected.

Our space is valuable, and brevity, as far as possible, should be observed in writing on any topic, and on ONE SIDE of the sheet only.

QUARTZ MINING.

The "Mammoth" and "Stump Lake" Ledges—Rich Assays.

Mr. R. K. Winters who recently returned to the city from Kamloops, reports that excellent progress is being made by the force of men he has at work in opening up "Mammoth" and "Stump Lake" ledges. These mines are situated about thirty miles southwest of Kamloops, and within a mile of the ledges there is one hundred inches (minimum) of running water while there is sufficient timber for all mining purposes immediately contiguous. A shaft is being sunk on the "Stump Lake," and is now down forty feet, at which point the ledge is three and a half feet wide with clearly defined walls. On the "Mammoth" the hole is down thirty-eight feet, where the ledge is two feet wide, and looking better every foot that it is lowered. Assays have been made to the rock from both places as follows: (1) Showing two-fifth ounces of gold and fifty-four ounces of silver, or $62 to the ton; (2) showing one-tenth ounces of gold and twenty-nine ounces of silver, or $31; (3) showing three-tenth ounces of gold and twenty-five ounces of silver, or $31; (4) one-fifth ounces of gold and thirty-four ounces of silver, or $38; (5) two-fifth ounces of gold and twenty ounces of silver, or $28. These assays were made during the last few months, but since the leads have been developed another assay has been made by Mr. Price, of San Francisco, and his certificate was received to-day. Two large pieces of rock, representing the best and worst that could be procured were submitted to the assayer, who reports that number one gives $210.85 in gold and $112.50 in silver to the ton, or a total of $323.35. The other showed $17.45 per ton, in about equal quantities of both metals. These are very satisfactory tests. The ledges will be still further developed, and it is very probable that a strong company will be formed to work them permanently. With such mineral veins, almost at our doors, and within easy access, there should not be the slightest trouble in finding men of capital and energy to take them in hand. The shrewd American has his eye on our mineral wealth and will likely pocket the most of it, as it will be his money and enterprise that will turn it into bullion and make it of use to the world.

An Elopement in Sumas.

A correspondent writing from Sumas gives the particulars of an elopement case which took place there a few weeks since. It appears that a gay young Lothario named Edward Nittle had became enamored with the wife of David Wells, and that his attentions to the woman named were reciprocated. She and her husband have been married several years and have several of a family. On the 23rd ult., during the absence of her husband she secured a swift steed and taking along with her the youngest child, set off with her paramour across the country for the American side. The outraged husband returned sooner than expected, and set off at once in hot pursuit after his truant wife and the recovery of his child. The runaways were overtaken near Nootsack, where a most affecting scene took place between the husband and his erring wife. On her promising to lead a better life hereafter he took her back with him. The wretch that had broken up a once happy family circle followed—but at a distance. He says the unfortunate woman is under his spell, and that come what will, he will have possession of her yet. The neighbors have notified him to quit that part of the country; failing his doing so, tar may be scarce, but it will be procured and with a liberal application thereof, added to feathers, and a strong rail, he may be made to beat an unwilling retreat. Shooting irons would be too easy a punishment, although his betters have been ushered off the scene for a less crime.

From Behring's Sea.

The sealing schooner City of San Diego, of San Francisco, Capt. M. White, arrived from the north to-day. She left Victoria on the 15th of May, and returns with nine hundred seal skins, which is considered a good catch. There is no news of importance to report. The Indians informed the captain by signs, their language being unintelligible, that a vessel had been dashed to pieces on the rocks several months ago. The particulars of this wreck has already been published in the San Francisco papers. The crew of the vessel, which belonged to the Alaska Company, were saved.

Coal Mine in Sumas.

A very rich vein of coal has been discovered on the mountain on the Smith side of the prairie on the American side of the line at Sumas. The seam is reported to be twenty-five feet in thickness. Another seam has also been discovered at the Indian rancherie, on the British side of the boundary. It is five feet in thickness. The coal is pronounced to be possessed of excellent burning qualities.

Considerable excitement is reported from the Port Sack river, as quite a number are on that stream prospecting for the precious yellow metal. Color has been discovered in several localities. It is believed that the metal is scarce in these parts.

The Hibbs Case.

Col. Stevens, U. S. Consul, has been officially notified that the necessary documents for the extradition of Hibbs are to be forwarded at once from Ottawa to Victoria. On their arrival here the prisoner will then be handed over to the United States authorities.

Ayer's Ague Cure acts directly on the liver and biliary apparatus, and drives out the malarial poison which induces liver complaints and bilious disorders. Warranted to cure, or money refunded. *

CITY COUNCIL.

Regular Meeting Last Night—The Electric Light Payment.

The regular weekly meeting of the City Council was held last evening. Present: Mayor Rithet and Councillors McKillican, Smith, Teague, Braden, Ward and Warner.

Minutes of former meeting read and approved.

COMMUNICATIONS.

From R. B. McMicking, applying for payment of fourth installment of $2500, on account of electric light purchase.

The Mayor explained that in consequence of Mr. Grant's absence, and Mr. Ward, chairman of the Finance Committee, having refused to sign the check, the installment had not been paid.

Councillor Smith said it was very strange that the chairman of the Finance Committee should decline to sign the check. The Council should empower some one else to do so.

Councillor Ward explained that he had always maintained that the electric light should be paid for by way of loan, but the Council had decided to take the whole amount out of this year's revenue. Had been opposed to its purchase, and he could not conscientiously sign a check for the payment.

Councillor Teague said that Councillor Ward was setting this council at defiance—he was like a refractory horse—and if he refused to carry out the wishes of the council he should resign.

Councillor Ward said that the council did not have the power to make him resign. In addition to other reasons the city was not very flush just now, and there could be no harm in letting the account stand over, especially as the company had made such a good sale.

Councillor Smith suggested the issuance of certificates of indebtness, which Mr. McMicking might accept. It would be an easy matter to let Councillor Ward down.

Councillor Teague moved that the communication be received and laid over for one week. Seconded and carried.

From Chas. Hayward for permission to remove St. Louis, R. C. Church across the street, and asking for the city lines. Request granted.

From W. H. Dorman and others, residents of Superior street, calling attention to the necessity of laying a sidewalk on said street. Referred to Street Committee.

From L. T. McQuade, on behalf of the Board of Delegates of the Fire Department, requesting that the apparatus be taken over by the Council by the first of December next, and that the Council have a bill passed at next session of the Legislature exempting firemen from serving on juries. Referred to special committee.

From Robert Porter, asking for privilege of using part of Fisguard street for building purposes. Granted.

From Mrs. T. S. Wilson, calling attention to a nuisance on Frederick street, in front of her premises. Referred to street committee.

From D. F. Fee, offering to furnish a horse-trough at North Park and Quadra streets if Council would make connection. Request granted.

From E. Mandaine, with regard to the offensive drain on Simcoe street, and offering for the sum of $25 to allow it to be run through his lot. Referred to street committee.

From Loewenburg, Harris & Co., giving date of awarding contract for building believed to have been erected in contravention of building by-law. Referred to City Barrister.

From the pound keeper giving the cost of removal of city pound to Spring Ridge at $1000, which will include the cost of building of sheds, fences, &c. Laid on table.

From R. Vawser, Manchester, in regard to the plan for city drainage. Received and filed.

NOTICE.

Councillor Smith moved his motion in reference to the introduction of by-laws to raise by way of loan the sum of $65,000 for city purposes, which was seconded by Councillor McKillican.

After considerable discussion and numerous suggestions, the motion was deferred until next meeting.

Councillor McKillican said that Judge Gray had complained that the sidewalk between his property and Judge Crease's was in such a dangerous condition that the judicial neck ran the risk of being broken on a dark night. Referred to the street committee.

Adjourned.

VOICE OF THE PEOPLE.

A Wonderful Discovery.

To THE EDITOR OF THE TIMES:

SIR,—Our esteemed friend, the ancient dame of the morning, belonging to the Conservative persuasion, and the recognized champion of the local government, has made a wonderful discovery. There are few things that the ancient dame does not know,—very few. Her discoveries are truely startling and perfectly original. Her knowledge extends from the values of real estate to the causes which go to make wars and disestablish kingdoms; from a knowledge of what is good for the "young idea" to what will secure the most of the government pap. It is a wonderfully diversified talent is this which the ancient dame possesses, but we were not prepared for this morning's revelation under the heading "A Nasty Trio." Our dear friend knows all about the Pall Mall disclosures; has been there, so to speak, and has the whole affair at his finger's ends. The whole business is a scheme to circulate pro-Russian ideas. Do you see the point dear reader? It is briefly this: The leader of the Salvation Army, some reformed women, a large portion of the clergy of London and a host of worthy citizens, with the editor of the Pall Mall Gazette at their head, conspired to established a sensation in order that the "pro-Russian" ideas of that journal might have a wider circulation and all this in the interests of the Liberal party! Was ever a more startling disclosure exhibited to the wondering gaze of the great unwashed! O, ye gods, weep no more! for a spirit of a Daniel and a Munchausen hath fallen upon the ancient dame, and who would dare to question her authenticity? Truly, the mantel of a Pitt, a Cromwell and a Bill Nye hath fallen upon one of our own times, and though Chamelion-like, it may present varied hues on varied occasions, nevertheless it is a mantel, a mantel of prophecy. Let not the common herd touch it with one of their fingers, else the spell be broken, and we have found ourselves unworthy, and our Almer Mater, of the Conservative persuasion, shall take her everlasting departure to more etherial climes, where prophetic robes shall have their due appreciation.

ANON.

County Court Fees.

To THE EDITOR OF THE TIMES:

SIR,—I notice with great pleasure that Sir M. B. Begbie has decided that clerks in the employ of solicitors, are entitled to solicitor's fees. This of course, settles the question as to agents being entitled to the same class of fees, and knocks down the unjust monopoly of County Court work that the lawyers have so long enjoyed.
